

LAB 17

Arantza Vilchis-Zarate, Patty Pieper and Anika Mittal

Wes Modes | Art 101

November 29, 2022

### Summary:

The three students met at Mchenry library to work on the extra credit assignment.

### Task 1: The List

#### List of things we had difficulty with:

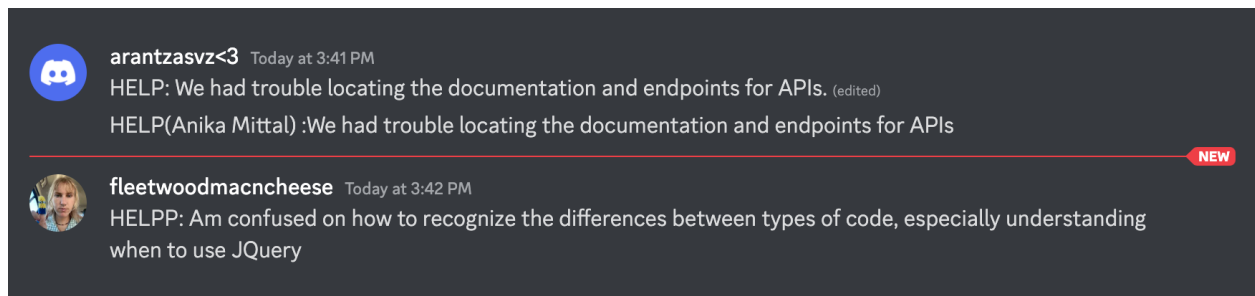

- APIs and Endpoints
- JSON
- JQuery
- Loops
- More specific CSS features (formatting)
- Creating Functions
- Some basics of Javascript

### Task 2: Selection

- We had trouble locating the documentation and endpoints for APIs
- We didn't understand how to connect endpoints to our JavaScript code.
- Am confused on how to recognize the differences between types of code, especially understanding when to use JQuery

### Task 3: Post

Screenshot of Discord Chat

(Anika had a difficulty posting on discord due to issues with her internet and the website, so another group member posted for her)
