17      <p>When originally inputting the javascript, I was having trouble. But with the help of my partner, I was able to fix minor details

<p>Summary of your evaluation/efforts:</p> <p>Am still getting the hang of javascript, but html and css have been running pretty smoothly. Am glad to have a partner to work out minor errors with, as sometimes it is hard to recognize without another's eyes. Also did have a little trouble fetching the console information, but it did eventually work with minor edits.</p>
